Saitek®

X65F Control System

Product Features & Benefits

Top of the range flight stick and throttle featuring unique force sensing mechanism, dual throttle control and the most functions ever found on a PC flight stick

- Full metal construction for the ultimate in realism and durability
- Unique force sensing stick – all input is detected from how hard you push on the stick, just like in real fighters like the F-16 or F-22
- Features on-the-fly adjustment of the force settings for the stick – including separate adjustments for each direction of the stick for the ultimate in stick response configuration
- Dual throttle – finer control over twin engine jets, or lock the two throttles together for single engine fighters
- Controls featured across both the stick and throttle: 8 x 8-way hats, 8 x buttons, 2 x rotaries, 1 x mouse hat, 1 x 2 way switch, 1 x scroll selector, 1 x 4 position mode switch – that's a potential total of 608 commands possible without ever moving your hands from the controls!
- Back panel with 7 more control switches, force sensing adjustment and mounting point for a Pro Flight Instrument Panel

Packaging Style

Product information

Product Code: SCB440420002/02/1

EAN Code: 0-21165-11070-0

Works with: Windows XP, XP64, Vista, Windows 7

Packaging information

Packaging: carton box

Dimensions (DxWxH): 22,5 x 22,5 x 31cm

Units per carton: 2

Box Contents

Stick, Throttle, Panel, Software and Quick Start Guide
